Accredited by National Assessment and Accreditation Council with "B" Grade

Internship Report

At

Goldenmace It Solution

Internship Duration: 22-12-2025 to 31-1-2026

Submitted in partial Fulfilment of
the requirement for the Degree of
BACHELOR OF COMPUTER APPLICATION

SUBMITTED BY:

Name of Student	TYBCA Sem.	Roll No.	Seat No.	SPID
Meet Chauhan	6	431	6077	23410258

UNDER THE GUIDANCE OF

Industry Guide: Madhuri Patil
Faculty Guide: Jigisha Patel

Certificate

- Company Certificate

GOLDENMACE IT SOLUTIONS

www.goldenmace.com

company to the concerned university department/college.

Issued on: 28th March 2026

OJT/Internship Completion Certificate

This is to certify that **Meet Chauhan, S/O Rajubhai Chauhan** , has successfully completed an internship with grade Grade A+ (Excellent) and marks 42 out of 50 (SEE*) for **BACHELOR OF COMPUTER APPLICATION, BCA** conducted by **GOLDENMACE IT SOLUTIONS** facilitated by **Sutex Bank College of Computer Applications and Science from 22/12/2025 to 31/1/2026 at GOLDENMACE IT SOLUTIONS Located at: 454, Laxmi Enclave 2, Near Gajera School, Katargam, Surat**

Certified by:

GOLDENMACE IT SOLUTIONS

GOLDENMACE IT SOLUTIONS *

Tejas Patel
Chief Operation Officer

Grading for performance are as follows:

Letter Grade	Marks (In %)	Tick Here
O (Outstanding)	97.0 - 100	
A+ (Excellent)	87.0 - 96.99	✓
A(Very Good)	77.0 - 86.99	
B+ (Good)	67.0 - 76.99	

*SEE: Semester End Evaluation

- Collage Certificate

Acknowledgment

I would like to express my sincere gratitude to everyone who supported and guided me during my internship in the field of MERN Stack Development at *Goldenmace IT Solution*.

This internship provided me with a valuable opportunity to gain practical knowledge and enhance my technical skills in modern web development technologies.

I would like to extend my heartfelt thanks to my faculty guide, **Prof. Madhuri Patil**, for her valuable guidance, continuous support, and encouragement throughout the internship period. Her kind and supportive nature helped me to overcome challenges and gain confidence during my learning journey.

I am also sincerely thankful to my organization, *Goldenmace IT Solution*, for giving me the opportunity to work in a professional environment. The experience I gained during this internship helped me understand real-world application development using the MERN stack (MongoDB, Express.js, React.js, and Node.js).

This internship significantly improved my understanding of full-stack development, strengthened my coding skills, and gave me exposure to building scalable and user-friendly web applications.

Finally, I would like to thank everyone who directly or indirectly contributed to making this internship a valuable and successful learning experience.

Declaration

I hereby declare that this internship report on *"MERN Stack Development"* is my original work carried out during my internship period. It is submitted as a part of the academic requirement for TYBCA (Semester-6).

The work included in this report is based on my practical learning at ***Goldenmace IT Solution*** under the guidance of my faculty guide, **Prof. Madhuri Patil**.

I confirm that this report has not been submitted anywhere else for any degree or certification. I take full responsibility for the authenticity of the content.

1. Internship Details

Particular	Details
Organization Name	Goldenmace It Solution
Address	454, Laxmi Enclave-2, Near Gajera School, Katargam, Surat
Internship Role	MERN Stack Developer
Duration	22-12-2025 to 31-1-2026
Working Hours	120
Supervisor, Mentor	Madhuri Patil
Department	Information Technology
Technology Used	Mern Stack: React.js , Node.js, Express.js, MongoDB
Tools Used	Vs Code, Postman, Git & Github Ai tools, Browser Dev Tools.
Project Type	

2. Objectives of Internship

- **To Gain Real-World Industry Exposure:**
To understand the professional working environment of an IT company and learn how real-world web development projects are managed.

- **To Apply Academic Knowledge Practically:**
To bridge the gap between theoretical knowledge gained during the BCA program and its practical implementation in real-world projects.

- **To Enhance Technical Skills:**
To develop and improve skills in MERN stack technologies such as MongoDB, Express.js, React.js, and Node.js.

- **To Develop Problem-Solving Ability:**
To learn how to identify, analyze, and solve technical problems during development.

- **To Improve Productivity Using Modern Tools:**
To explore and use modern tools and technologies to increase efficiency and productivity in development work.

3. Description of Work Done

- **Roles and Responsibilities::**
  During my internship at *Goldenmace IT Solution*, I was actively involved in developing web applications using MERN stack technologies. I got the opportunity to understand how real-time projects are executed in a professional IT environment. My responsibilities included both frontend and backend development tasks, along with learning best coding practices.

- **Website Development:**
  Developed and structured web pages using HTML, CSS, and JavaScript to create interactive and user-friendly interfaces.

- **Frontend Design and Layout:**
  Designed responsive layouts and improved the visual appearance of web pages to ensure better usability and user experience.

- **Backend Development:**
  Worked on creating REST APIs, handling server-side logic, and managing routes using Node.js and Express.js.

- **Database Management:**
  Used MongoDB to store and manage application data efficiently.

- **Testing and Debugging:**
  Tested applications, identified bugs, and fixed issues to improve performance and functionality.

- **Description of Technologies, Tools Used:**

- **MERN Stack (MongoDB, Express.js, React.js, Node.js):**
  Used for full-stack web application development.

- **Visual Studio Code (VS Code):**
  Used as the main development environment for writing, editing, and testing the source code.

- **Browser Developer Tools:**
  Used for debugging, inspecting elements, and improving the layout and performance of web pages.

- **Postman:**
  Used for testing APIs and verifying backend functionality.

- **Project Implementation:**
  Worked on implementing complete features including UI design, API development, and database connectivity.

- **AI Tools (Google Gemini, ChatGPT):**
  Used for generating ideas, solving coding issues, and improving productivity during development tasks.

- **Web Development Projects:**
  Screenshots of website interfaces, forms, and web pages developed during **the** internship period.

4. Learning Outcomes

During my internship at **Goldenmace IT Solution**, I gained valuable industry exposure and enhanced both my technical knowledge and professional skills related to the IT field.

Technical & Software Skills Developed:

- **Web Development Skills:**
  Improved practical knowledge of web development by working with technologies such as React.js, Node.js, Express.js and MongoDB to design and develop responsive webpages.

- **Frontend Design and User Interface Development:**
  Learned how to design clean and responsive website layouts, focusing on improving the user interface and user experience.

- **Debugging and Testing:**
  Developed the ability to identify errors in code and resolve them effectively while testing web pages and application features.

- **Development Tools Usage:**
  Gained hands-on experience using development tools such as Visual Studio Code and browser developer tools for writing, editing, and debugging code.

Professional Skills & Industry Exposure Gained:

- **Understanding of IT Industry Workflow:**
  Learned how real-world IT projects are planned, developed, and maintained within a professional development environment.

- **Problem-Solving Ability:**
  Improved logical thinking and problem-solving skills while handling coding challenges and fixing technical issues.

5. Challenges and Solutions

- **<u>Challenge</u> 1: Debugging Errors in Web Development**

  Problem: While developing web pages using react.js and components, I encountered several coding errors that caused layout issues and improper functioning of certain elements such as forms and navigation components. Identifying the exact source of these errors was challenging in the beginning.

  Solution: I carefully analysed the code using browser developer tools and debugging techniques. I also referred to online documentation and AI tools such as Google Gemini and ChatGPT to understand the error and find appropriate solutions. This helped me improve my debugging skills and resolve the issues effectively.

- **<u>Challenge</u> 2: Creating Responsive Web Layouts**

  Problem: While designing website interfaces, ensuring that the layout worked properly on different screen sizes such as mobile, tablet, and desktop devices was initially difficult. Some sections were not adjusting correctly across various screen resolutions.

  Solution: I studied responsive design techniques and used Tailwind CSS utility classes to create flexible layouts. By testing the website on multiple screen sizes and making necessary adjustments, I was able to develop a fully responsive and user-friendly interface

6. Weekly Summary

Week	Date	Technologies Used	Learning Outcome
Week 1	22-12-2025 to 27-12-2025	HTML, CSS, Bootstrap JavaScript	Understood basics of web development, created simple web pages, and learned structure, styling, and basic interactivity.
Week 2	29-12-2025 to 03-01-2026	React.js, JSX, TypeScript, Tailwind CSS	Learned React fundamentals, component-based architecture, and created basic UI components.
Week 3	05-01-2026 to 10-01-2026	Node.js, Express.js	Understood backend development, created basic server, handled routing and built simple APIs.
Week 4	12-01-2026 to 17-01-2026	MongoDB, Mongoose	Learned database integration, performed CRUD operations, and managed data using MongoDB.
Week 5	19-01-2026 to 24-01-2026	JWT, Auth Security API Integration (Axios)	Implemented authentication system, connected frontend with backend, and handled secure data exchange.
Week 6	26-01-2026 to 31-01-2026	Git, GitHub, Debugging Tools	Learned version control, project management, debugging techniques and improved overall application performance.

7. Conclusion

- My internship at *Goldenmace IT Solution* has been a valuable and enriching experience. It helped me move beyond theoretical knowledge and gain practical exposure to real-world software development.

- During this internship, I improved my technical skills in MERN stack technologies and gained hands-on experience in building web applications, developing APIs, and managing databases. I also learned how real projects are planned and executed in a professional environment.

- Apart from technical knowledge, I developed important skills such as problem-solving, time management, and teamwork. Working under guidance helped me gain confidence and understand industry expectations.

- Overall, this internship played a significant role in enhancing my practical knowledge and preparing me for future career opportunities in the IT field.

8. References

- **MDN Web Docs (Mozilla Developer Network):** Referenced for understanding web development concepts including HTML, CSS, and JavaScript.

- **W3Schools:** Used as a learning resource for practicing web development techniques and understanding coding examples.

- **Tailwind CSS Documentation:** Referenced for designing responsive layouts and implementing modern UI components using Tailwind CSS.

- **Visual Studio Code Documentation**: Used to understand development tools, extensions, and coding practices during the project development **process.**

- **Google Gemini, ChatGPT:** Utilized as an AI-based resource for solving coding problems, generating ideas, and improving development efficiency.

- **YouTube Educational Content:** Referred to various web development tutorials for learning practical implementation of frontend development techniques.

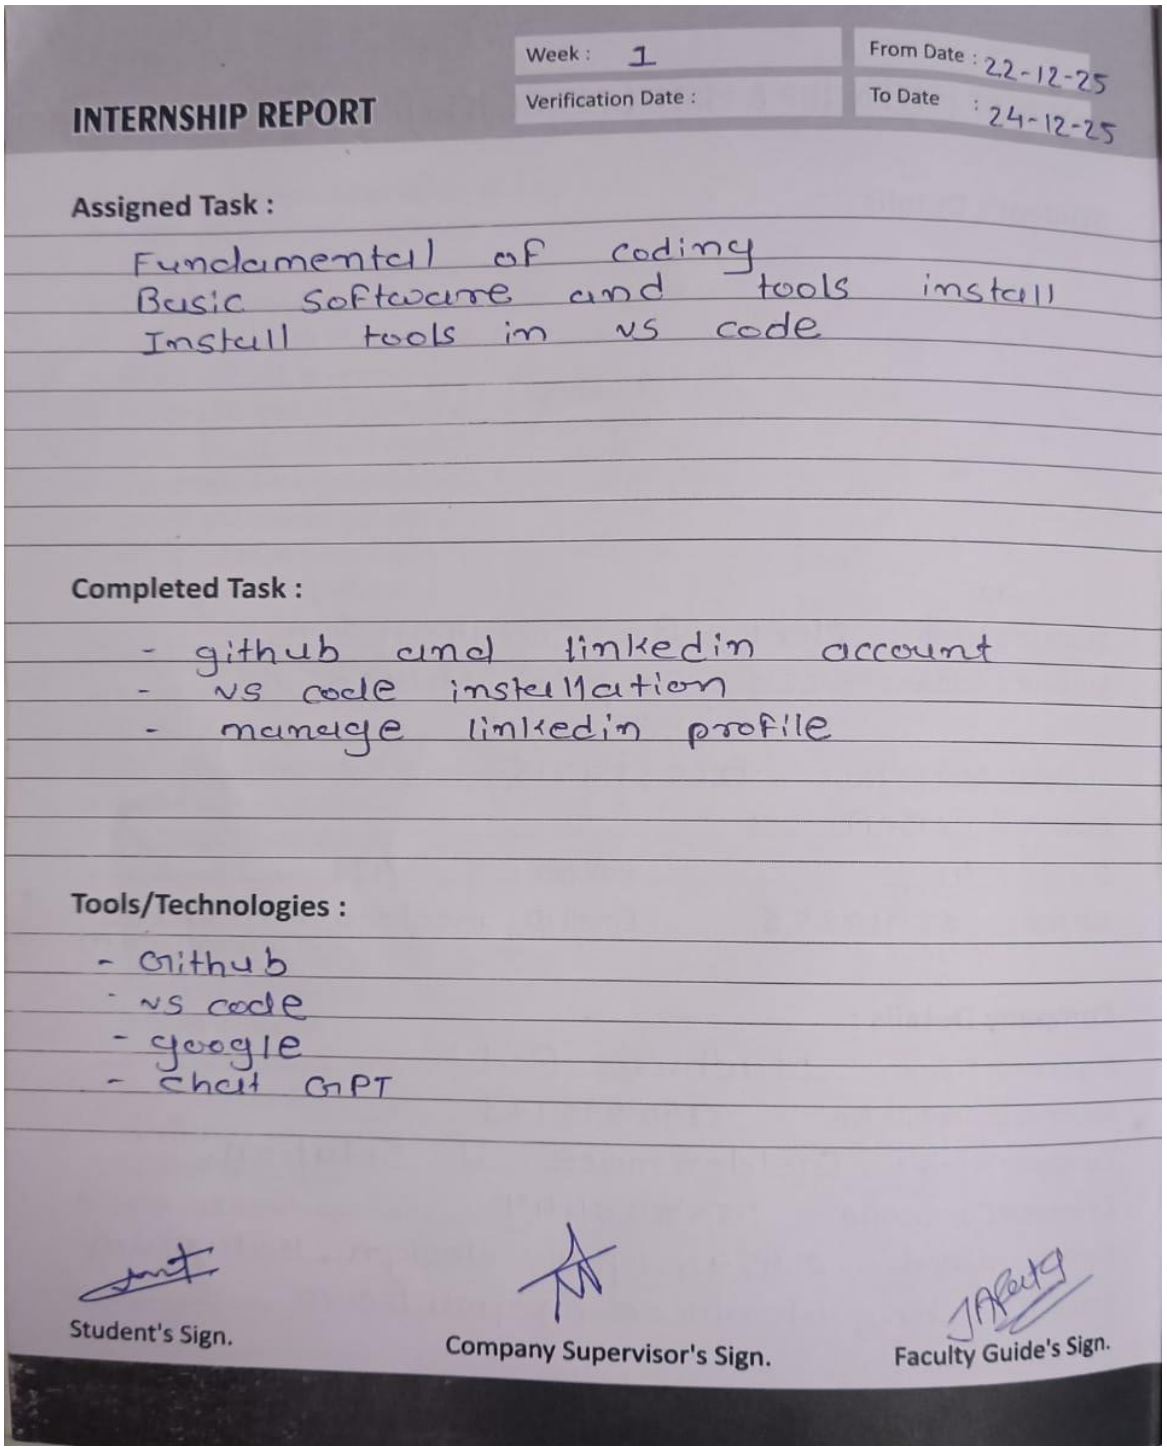
9.1 Annexure (Week 1–12)

(Diary Internship Report pages)



INTERNSHIP REPORT

Week : 1

Verification Date :

From Date : 22-12-25

To Date : 24-12-25

Assigned Task :

Fundamental of coding
Basic software and tools install
Install tools in vs code

Completed Task :

- github and linkedin account
- vs code installation
- manage linkedin profile

Tools/Technologies :

- Github
- vs code
- google
- chat GPT

Student's Sign. Company Supervisor's Sign. Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 2

Verification Date :

From Date : 25-12-25

To Date : 27-12-25

Assigned Task :

- learn HTML, CSS and JS
- header, section, Footer
- Build form (name, email, password)
- style from use CSS

Completed Task :

- Build normal website using HTML, CSS a
- Build form

Tools/Technologies :

- HTML
- CSS

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 3

Verification Date :

From Date : 29-12-25

To Date : 31-12-25

Assigned Task :

- Advance CSS
- Clone simple login page
- Fix broken HTML / CSS
- Build page + explain tags

Completed Task :

- Clone login and Register page
- Debuging
- Fix structure

Tools/Technologies :

- HTML
- CSS

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 4

Verification Date :

From Date : 1-1-26

To Date : 5-1-26

Assigned Task :

- variables data types in JS
- Functions + arrow functions
- Array methods (map, filters)
- promisis and events.

Completed Task :

- learn JS
- variables, functions, collection libraryS.

Tools/Technologies :

- JavaScript
- HTML
- CSS

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 5

Verification Date :

From Date : 6-1-26

To Date : 8-1-26

Assigned Task :

- Dom manipulation
- form validation
- Fix JS runtime errors.
- Build mini JS app

Completed Task :

- learn Dom and debuging
- Build Ti stone, paper, sizzer project.

Tools/Technologies :

- HTML
- CSS
- JS

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 6

Verification Date :

From Date : 4-1-26

To Date 12-1-26

Assigned Task :

- Create React app + Folder structure
- Components + props.
- useState counter app
- Form handling in React

Completed Task :

- Build React app using vite
- Form handling
- Hooks understand

Tools/Technologies :

- React js
- HTML
- CSS
- JS

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 7

Verification Date :

From Date : 13-1-26

To Date : 17-1-26

Assigned Task :

- Conditional rendering
- fix React errors
- Build small React app
- useEffect with API
- Custom hook

Completed Task :

- learn all hooks in React
- Build simple project to show all hooks functionality.

Tools/Technologies :

- React js
- HTML, CSS, JS

Student's Sign. Company Supervisor's Sign. Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 8

Verification Date :

From Date : 19-1-26

To Date : 21-1-26

Assigned Task :

- optimize re-renders
- pagination UI
- fix infinite render
- React crud app

Completed Task :

- learn all things in React
- to connect and use tailwind CSS
- Build project to fetch Data throw API

Tools/Technologies :

- React js.
- axios
- API - Json

Student's Sign. Company Supervisor's Sign. Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 9

Verification Date :

From Date : 22-1-26

To Date : 24-1-26

Assigned Task :

- Setup Express Server
- GET and POST API
- middleware + validation
- JWT authentication

Completed Task :

- learn every thing in Node js
- learn framework Express js
- Authontiction

Tools/Technologies :

- ~~node~~ Node js
- postman
- Express

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 10

Verification Date :

From Date : 26-1-26

To Date 28-1-26

Assigned Task :

- Error handling
- Fix async bug
- Build Rest API
- mongoDB schema + CRUD

Completed Task :

- Bug fixing and error handling
- learn mongo DB
- create project to show Rest API project.

Tools/Technologies :

- node js,
- Express
- post mem
- mongoDB

Student's Sign.

Company Supervisor's Sign.

Faculty Guide's Sign.

INTERNSHIP REPORT

Week : 11

Verification Date :

From Date : 29-1-26

To Date : 31-1-26

Assigned Task :

- mongoDB Relations + populate
- connect React + API
- Auth - protected routes
- Full CRUD app
- Fix Full-stack bug
- Full mern project.

Completed Task :

- Build Full mern - stack project
- learn everything in mern stack.

Tools/Technologies :

- React js,
- Node js,
- Express js,
- mongo DB.

વિદ્યાર્થીઓ માટે સૂચનાઓ (Instructions for Students)

- દરરોજ ઈન્ટર્નશીપ સ્થળે પહોંચ્યા બાદ આવવાનો સમય અને જતાં પહેલાં જવાનો સમય લખવો
- દિવસ પૂર્ણ થયા પછી કંપની સુપરવાઈઝરની સહી ફરજીયાત કરાવવી.
- ફેકલ્ટી ગાઈડ દ્વારા મુલાકાત સમયે સહી લઈ શકાય છે.
- કુલ કલાકોમાં રોજિંદા કામનો કુલ સમય દર્શાવવો (ઉદાહરણ : ૧૦.૦૦ થી ૬.૦૦ = ૮ કલાક)
